

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

If teachers will follow the instructions given in the Manual, I shall have no occasion to regret the preparation of this book; but if it is used as such books may be used, it would have been better not to add another to the many facilities now afforded teachers for the thoughtless oral spelling of columns of words.

It is a great convenience to the teacher to have groups of words arranged with reference to their orthographical peculiarities; but the teacher who simply pronounces these words, with no discussion or application of their meaning or use, comes very far short of his duty in the spelling recitation.

The pupil should first get the idea which the word represents, then associate the idea with the word, and lastly, write the word. This requires the most careful and critical examination of the spelling lesson on the part of the teacher, without which, it is not possible to attain the highest success in teaching children to spell.

I have not attempted to indicate the number of words that shall be taken up at a lesson. No one can know this so well as the teacher.

The words are arranged in long columns as a matter of economy. They are first grouped with reference to the vowel element in the accented syllable. In the reviews, a different classification is adopted, still based on

orthographical peculiarities, but the words are so arranged as to break up the former association, and thus test the pupil's ability to spell them, independent of their classification.

I have omitted all rules for spelling as being cumbersome, confusing, and unreliable. Any person who would spell well, must form the *habit* of spelling correctly, so that, without reflection, he will be able to write rapidly and correctly. This can only be acquired by writing words over and over again, until, from mere habit, he writes them correctly. With this view, it is important that the words should be correctly written from the very first.

The proper pronunciation of the words is determined, for the most part, by the accent and the classification.

If the accent is on any other than the first syllable it is indicated by the usual mark.

In the more advanced review lessons, the ability to syllabicate and pronounce correctly is tested, — a point to which the teacher should give careful attention.

It will be observed that the book is arranged in six parts, and, in a graded school, may cover as many years, beginning with the intermediate department.

With rare exceptions, I have taken Webster as authority in spelling, syllabication, and pronunciation. In a few instances, however, I have adopted the preference of Worcester rather than that of Webster, where it is plainly more in accordance with general usage.

E. A. S.

Oswego, *September*, 1877.

LATIN ABBREVIATIONS.

A. B. (*Artium Baccalaureus.*) Bachelor of Arts.
A. D. (*Anno Domini.*) In the year of our Lord.
A. M. (*Artium Magister.*) Master of Arts.
(*Ante Meridiem.*) Before noon.
(*Anno Mundi.*) In the year of the world.
Con. (*Contra.*) Against; in opposition.
D. D. (*Divinitatis Doctor.*) Doctor of Divinity.
D. V. (*Deo volente.*) God willing.
e. g. (*exempli gratiâ.*) For example.
Etc., etc., or &c. (*Et cæ'era.*) And others; and so forth.
Ib, ib., Ibd., or ibd. (*Ibidem.*) In the same place.
Id., or id. (*Idem.*) The same.
I. e., or i. e. (*Id est.*) That is.
I. H. S. (*Iesus* [or *Jesus*] *Hominum Salvator.*) Jesus the Saviour of men.
incog. (*Incognito.*) Unknown.
In trans., or intrans. (*In transitu.*) On the passage.
LL. B. (*Legum Baccalaureus.*) Bachelor of Laws.
LL. D. (*Legum Doctor.*) Doctor of Laws.
L. S. (*Locus Sigilli.*) Place of the Seal.
M. D. (*Medicinæ Doctor.*) Doctor of Medicine.
N. B. (*Nota bene.*) Note well, or take notice.
Per cent. (*Per centum.*) By the hundred.
Ph. D. (*Philosophiæ Doctor.*) Doctor of Philosophy.
P. M. (*Post Meridiem.*) Afternoon.
Pro tem., or pro tem. (*Pro tempore.*) For the time being.
Prox. (*Proximo.*) Next, or of the next month.
Ult., or ult. (*Ultimo.*) Last, or of the last month.
Viz. (*Videlicet.*) To wit; Namely.

AMERICAN HISTORY FOR SCHOOLS.

ATTRACTIVE, INTERESTING,

BEAUTIFULLY ILLUSTRATED.

BARNES'S SERIES:

Barnes's Primary History of the United States. By T. F. Donnelly. For Intermediate Classes . . 60 cents

Barnes's Brief History of the United States. Revised to the present administration $1.00

ECLECTIC SERIES:

Eclectic Primary History of the United States. By Edward S. Ellis. A book for younger classes, or those who have not the time to devote to a more complete history 50 cents
